I think you are right that the focus on Bristol Bay means they will leave me alone for a while. But we will see.

I have not heard. Did they eliminate some of the place based positions?

Hey, some disturbing news for most of the place based offices today. R U ok?  
I dodged the recall this round, but others have been reassigned by location and/or program.

We're guessing with Bristol Bay a hot item, maybe the region's finally understanding the value of your local knowledge and work.
